HOW TO MAKE MONEY

Buy a Home or Lot Where it Will Increase in Value Every Month. Volumes might be written on what keeps most people poor. The principal one is that we are most of us very blind to our own interests, or we will persist in standing in our own light. Most of us will not try.

We can all look around and see how some of our neighbors have prospered. Nine times in ten we find the property of the successful people whom we know to be the result of their getting hold of a little property, and its growth through the growth of the country generally—particularly Pensacola and vicinity.

You can do the same thing to-day. There was never a better time to buy houses and lots than now. Almost anything you buy, is bound to pay you handsomely in a few years or less.

While you are about it, you might as well buy the best

Uses For Fishbalds. The serrated spines of the rayfish are used by the Indians of the Amazon to arm their arrows. Sharks' teeth are used in arming weapons, while the teeth of this and other species are used as trinkets by many peoples. The jaws of the sleeper shark are used for head-dresses by certain of our Indian tribes. The vertebrae of the sharks are also prepared as canes. In Japan the bones of sharks and skates are used in making imitation tortoise shell. In Europe and this country shark and ray skins are employed to smooth and polish substances, while the skin of the thornback is employed by cabinet makers in lieu of sandpaper, than which it is very much more durable. Woodworkers also use the rough skin of the blue dogfish like emery paper for smoothing their work and preparing it for polishing. In India the jawbone of the boale fish is employed by the natives about Dacca. The teeth, being small, recurved and closely set, act as a fine comb for carding cotton in removing the loose and coarse fibers and all extraneous matters from the cotton wool.
